CONTENTS

1. ACKNOWLEDGEMENTS	3
2. EXECUTIVE SUMMARY	5
3. INTRODUCTION	6
4. CONSULTATION	7
Child Health Survey Technical Expert Group	7
Topic area consultation	7
Area health service contacts	7
5. DEVELOPMENT OF SURVEY INSTRUMENT	8
Figure 1: Flow chart of stepwise process of survey instrument development	9
Development of content areas	8
Table 1: Proposed content areas and application of criteria to prioritise these for inclusion in the survey	11
Table 2: Proposed content areas for inclusion in the <i>New South Wales Child Health Survey</i> and proposed measurement elements	22
Question Development	23
Table 3: Surveys identified and reviewed for possible questions	24
Table 4: Examples of question modification into Australian English	26
Table 5: Examples of adult question modification for administration in a child health survey	26
Table 6: Examples of newly developed questions	27
Table 7: Examples of question modification to improve clarity	28
Table 8: Summary of question development for the survey instrument, <i>New South Wales Child Health Survey</i> : question origin, target age group and method of development	29
6. DEVELOPMENT OF METHODS	32
Sampling and oversampling	32
Table 9: Estimated sample size for age groups in the <i>New South Wales Child Health Survey</i> : without weighting for age	32
Table 10: Results of weighting applied to pilot 1 compared to no weighting in pilot 2, <i>New South Wales Child Health Survey</i>	32
Initial household contact	32
Figure 2: Flow chart of respondent selection from point of initial household contact	33
The proxy responder	33
Table 11: Proxy respondent selected by different questions used in two survey pilots, <i>New South Wales Child Health Survey</i>	34

Question response	34
Interviews in languages other than English	35
Table 12: Estimated numbers of interviews in languages other than English for the <i>New South Wales Child Health Survey</i>	35
Collecting information on other carers of children in the household	35
Order and timing of questions	35
Table 13: Mean duration of various sections of the <i>New South Wales Child Health Survey</i> by age group, pilot two	36
Introductory letters	36
Table 14: Effect of mailing letter about the survey on the response rate, pilot 2	36
Identification of children at risk	36
Figure 3: Children at risk flow-chart	37
Box 1: Child Health Survey Child Protection Procedures	38
Box 2: Script used for informed consent for parents or carers of children in the <i>New South Wales Child Health Survey</i>	38
7. CONCLUSION	39
8. REFERENCES	40
9. APPENDIX: <i>New South Wales Child Health Survey 2001</i> Questionnaire	42
